

## SPUTNIK DIGITAL ARE LOOKING FOR A TALENTED FULL STACK DEVELOPER

We are experts in digital; providing strategic direction, user centred design and robust engineering to enterprise clients.

Our passion for delivering quality at every stage of this process sets us apart from the competition and makes Sputnik a great place to work. This commitment to quality ensures we have happy clients and a happy team that have the freedom to explore and innovate; pushing the limits of their expertise, while leaving no technical debt behind them.

The reason we can work for large corporate clients such as Swinton Insurance, BPP University, Visit Scotland and Acino Pharma is down to the shared values and complementary skills of our team. We treat each other and our clients with professionalism and integrity respecting each other's abilities and expertise and providing support to team members where it is needed.

We have a startup mentality (start with user needs, keep it simple, iterate), utilise sprints, and successful track record of delivering projects short, intensive deadlines.

### WHAT WE WANT FROM YOU
